

## WAGNER C4 Automatic and Manual Guns - the new generation

### Efficient, Flexible, Safe

WAGNER HiCoat manual guns are constructed for high coating output, high efficiency and a long service life. They offer the user optimal handling that is achieved through the use of robust materials, a weight-optimized design and a high performance charging and atomization system.

#### Quality Performance

- Various nozzles for a variety of applications
- Perfect coating results
- High transfer efficiency

#### Economical and Ergonomic

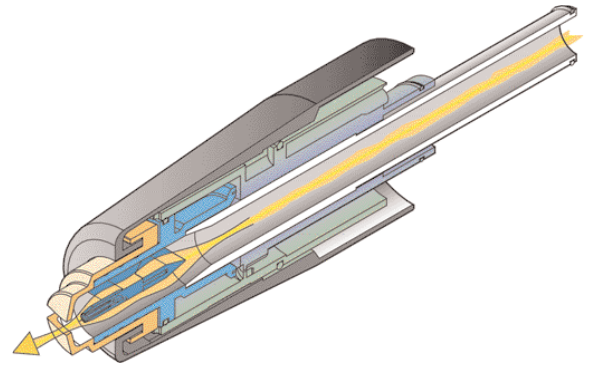

- Low maintenance
- Exchangeable wear parts
- Light weight gun for fatigue free working

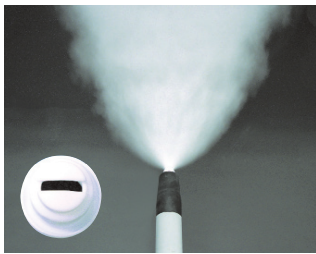

## The Powerlock System

Save time when changing powders, with WAGNER'S new Powerlock System for fast, effective cleaning:

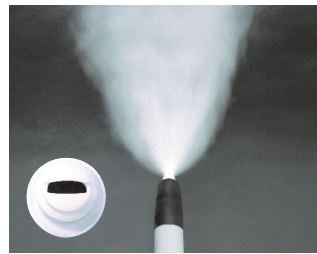

- Automatic cleaning of the powder duct in the gun.
- Stable positioning of the nozzle components.
- Easy accessibility to wear parts.

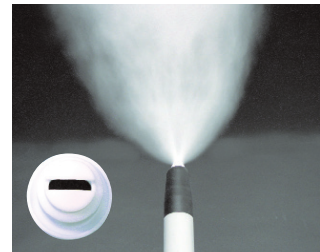

## The Variable Flat Jet Nozzle System

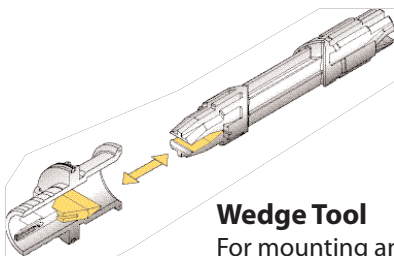

**Nozzle F1**  
Soft cloud with wide flat jet for flat parts.

**Nozzle F2**  
Dense cloud with narrow flat jet for partial or fast coating.

**Nozzle F3**  
Fast cloud with targeted flat jet for reduced edge build up.

**Wedge Tool**  
For mounting and emounting the protective wedge in the electrode holder. The main benefit: only the wear part is changed.

**Retrofit Kits**  
Conversion made easy. Our accessories fit on all earlier models C2 and C3.

### WAGNER Parts - No Compromises

Using original spare parts will guarantee quality standards. All spare parts are labeled with the WAGNER logo.

# Tribo - proven technology for outstanding results

## Corona Gun Accessories

**Nozzle Extensions**  
Available in three sizes, 5.9", 11.8" and 19.7". Best suited for coating deep work pieces.

**Round Jet Nozzles**  
For large areas and uniform film thickness distribution.

**Flat Jet Nozzles**  
For various areas of application.

**Corona Star**  
Reduces the orange peel effect. For use with awkward shapes and high film thickness.

**Angle Adapter**  
For use with PEA-C4, PEA-C4XL and PEA-C4 Twin. Available in 30°, 60° and 90° angles.

## Tribo Guns

PEM-T3

PEM-TG3

PEA-T3

PEA-T3 XL

## Tribo Accessories

Powder Shower

Finger Nozzle

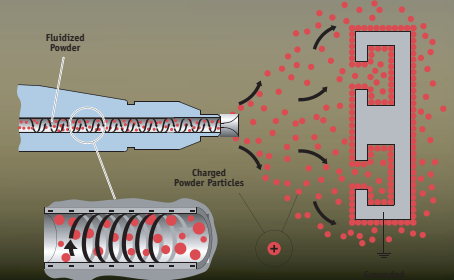

Nozzle Extension

Wide Fan Spray Nozzle

Tribo spray guns are ideally suited for coating difficult parts. The extensions are available in three lengths, 43.3", 55.1" and 70.9". Quick release couplings make for fast color changes.

## Tribo powder coating

## PrimaSprint -

WAGNER'S newest manual powder system combines attractive design and superior functionality. Easy to use with the capability to store up to 50 recipes. Available in three versions, Airfluid, 60L Hopper and 3L Hopper.
